## COMPANY OVERVIEW

AUTOMOTIVE INC was established to serve individual customers in the following areas:

- Selling of New and Refurbished Vehicles
- Selling of Automotive Spare Parts and Accessories
- Provide Automotive Services for all vehicle types

### 1. Team and Workspace

Users	Roles	Restrictions	Department
Chad	Service Technician Manager	- No access to WF and billing - No access to Forms - No access to Campaigns	Maintenance Services
Larry	Sales Managers	- No access to WF and billing - No access to Forms	Sales
Rob			
Chris	Super Admin	Overall Access	N/A (Owner)

- Service Tech Manager will be solely managing the Maintenance and Services Department. If a service request is received, he will manage client details + booking schedule. At the same time, he will assign a service tech to work with the customer.

#### Service Technicians

1. Mike
2. James
3. Chase

- Service Tech Manager to create deals and monitor the stages for every service request received with confirmed booking.
- Sales Managers will be responsible for all leads assigned to them. Sales managers will be focused on the car sales cycle only.

- Sales Managers to qualify the lead (identify salary bracket etc.), as soon as it's qualified, then convert the lead to prospect and create/start the deal process until the stages are completed. As soon as it's a close deal, convert it to a customer.
- Sales to offer additional services and accessories to the qualified clients.

## 2. Client Management

- **Categorization** – Set up categories according to company's products and services:
  1. BRAND NEW CAR
  2. REFURBISHED CAR
  3. MAINTENANCE SERVICES

**Pitch:** Saphyte adapts to your business processes by providing you with the ability to set custom categories, statuses, and sub-statuses for easier categorization of your clients. This will also be useful for targeted email marketing where you can easily send marketing materials according to your client categories.

- **Lead Sources**
  1. Referral
  2. Inbound
  3. Calls
  4. Company Website
  5. FB
  6. Instagram
  7. Email Marketing

- **Custom Fields**

**Pitch:** On top of the general attributes stored in the system, any additional info essential to your business process can be captured through a custom field. In addition, Saphyte allows you to section and rearrange your custom fields accordingly.

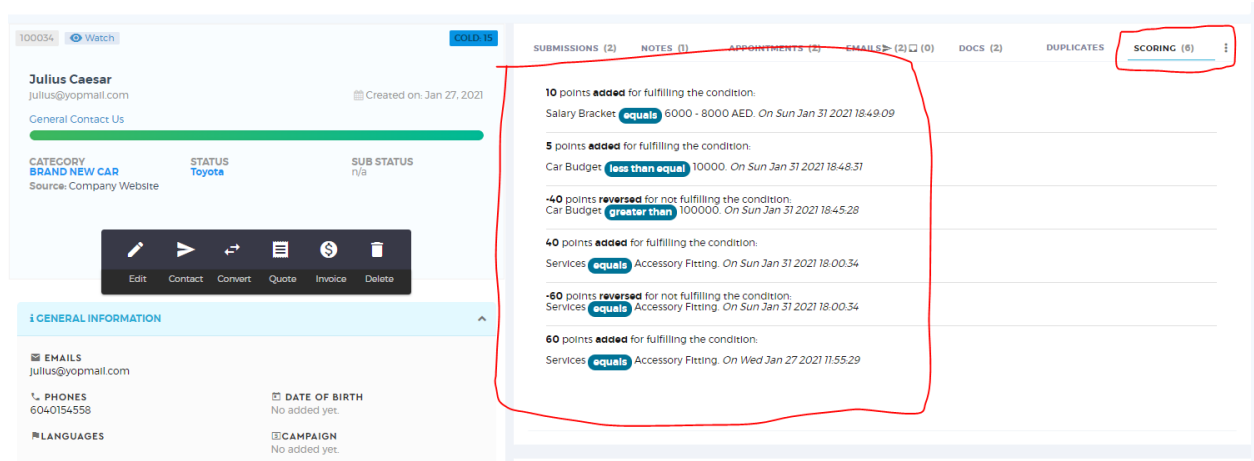

- **Lead Scoring**

**Pitch:** Ditch the pen and paper and manual work. Lead Scoring functionality will allow you to score your leads according to your set criteria to identify client's eligibility or whom to prioritize. The higher the score, the greater potential to convert your lead to be your customer.

**Demo:** Fill in the below-mentioned custom fields to generate a lead score

- Salary Bracket
- Car Budget

Navigate to the Scoring logs to track the point system

## 9. Invoice

- When creating an invoice, you can define the format of your invoice by clicking on the gear icon beside the Invoice Number field.

The screenshot displays a CRM dashboard with a navigation menu on the left and a main content area titled "INVOICES". The navigation menu includes sections for BILLING, LOGS, MEDIA LIBRARY, RECYCLE BIN, TEAM (USERS, ROLES, DEPARTMENTS, VENDORS), and CONFIGURATION (WORKFLOWS, FORM BUILDER). The main content area features a search bar, a "Sort by" dropdown, and a "Filters" dropdown. A table lists invoice entries with columns for DESCRIPTION, AUTHOR, STATUS, CLIENT, DEAL, QUOTE, and TOTAL. One entry is visible: "0000001" with author "Chris Smith", client "Rowena Garcia", deal "N/A", quote "5002", and total "105,000.00". A dropdown menu is open for the "SENT" status, showing options: SENT, DRAFT, SENT, PAID, OVERDUE, PROCESSING PAYMENT, and VOID. The table also shows "Showing 1 to 1 of 1 entries" and navigation buttons for "Previous", "1", and "Next".
